

COB LED Strip

NEW COB LED STRIP

For customers who do not fancy to solder, Båtsystem has launched a new series of dotless LED tapes that are easily connected or prolonged by means of connectors. They are supplied in two lengths, 1 meter or 2.5 meter to be cut where needed or daisy chained for lengthening.

The LEDs are warm white (3000 Kelvin) and have a Colour Rendering Index (CRI) of >90.

The COB LED Strip is replacing our previous family of Super Strips.
