## ALUMINIUM MOUNTING PROFILE FOR MIDI-SLEEVE

As an alternative to install Båtsystem's Midi-Sleeves sidelight tapes into a cut groove, a new type of 1m long U-shaped aluminium profiles are offered for easy and quick installation. The profile is glued onto the boat's surface by means of the supplied adhesive tape and the Midi-Sleeve is then simply inserted into the profile. Available in silver and black.

For service or replacement (e.g. in another colour temperature), the Midi-Sleeve can easily be pulled out of its groove again and replaced by another type of MidiSleeve.
